Club 3D welcomes you for business meetings at CeBIT 2010

AMSTERDAM, The Netherlands February 24, 2010 – Club 3D B.V. the European leading graphics cards specialist invites customers to the largest international IT fair CeBIT in Hannover, Germany.

Club 3D started out in 1997 as the pioneer of full graphic chipset solution of Video Graphic Adapters for desktops PC's. Regardless of which graphics chipsets are available on the market, currently ATI and NVIDIA, Club 3D carry the full range. Our business model is to act as one stop shop for graphics solutions.

All our products are specialized for the retail channel, meaning they undergo strict Quality Control. With our unprecedented expertise of the distribution channel we deliver products of the highest quality and innovation.

Club 3D is the sole vendor to carry the full range of expansion slots: PCI/AGP/PCI-E X1/ PCI-E X16, we serve our customers with the widest availability of choice. This gives your business a simplified purchase policy as well as chance to consolidate product range.

Our location in the Netherlands enables us to provide next day shipping service within Europe. Club 3D's strong logistics team also easily facilitates shipments worldwide.

Club 3D will be present from the the 3rd to the 5th of March 2010, in CeBIT business center Hall 16 (C92) Room 16.
